David H Slack

JUL 15, 1941 - OCT 6, 2014

David H. Slack, 73, Camden/Wyoming, passed away Monday October 06, 2014 at his home with family.

He was born on July 15, 1941 in Easton, PA to William and Julia Schwar Slack.

Dave worked at ILC Dover in a career that spanned 47 years supporting NASA's space programs. Dave started working at ILC in 1966 as a reliability technician and junior project engineer where he monitored testing and failure analyses for the development and production of all Apollo Spacesuit. In 1977 he became a project engineer responsible for development and production of all aspects of the Shuttle Spacesuit. In the 1990's Dave was critical to enhancement of the Shuttle Spacesuit design that helped NASA astronauts build and service the International Space Station. Until his retirement in 2013, Dave supported the production of spacesuit components that enabled human space exploration, and mentored numerous engineers and technicians in the art of Spacesuit design and manufacture.

He is survived by his Wife of 54 years, Elizabeth A Slack of Wyoming, DE. Son, Kevin D (Lois) Slack of Hartly, DE. Son, Edward J Slack of Wyoming, DE. Nancy and I are in FI and couldn't be with you at this time. I feel fortunate to have worked with Dave and been his friend for many years. Dave was consistent and reliable. When he had a job it got done and done well. He was one of a very few who saw the big picture of the program, but also understood the details of how the suit worked. Your pride in Dave's accomplishments are very deserving.

A better brother and friend you would have to look hard to find. He was caring and tried to help all who knew him. He will be greatly missed at the Archery Club that he helped to build bigger and better than it was when he first started going there. I miss him so very much.
